Robert Sayers, Program Instructor

Mr. Robert Sayers is an instructor at STARBASE Louisiana. After graduating from Woodlawn High School in Shreveport, LA he began a career working on IBM main frame computers for over fifteen years. He then started a new career as a sales representative for the next twenty five years. At the age of fifty he decided to enter the field of education. He graduated from the University of Memphis and was honored for his outstanding academic achievement by being on the National Dean's List each semester.

His duties as an instructor involve being an alternate lead teacher and support teacher during classroom activities. Other responsibilities include preparing materials, setting up classrooms, taking pictures for PowerPoint presentations, and assisting in curriculum development. He is also responsible for assisting in planning, preparing, and conducting program workshops for the local, state and national levels. He also worked with presenting activities to Graduate students during the STARBASE Teacher Academy.
